CAPABILITY STATEMENT

Baxter Group, Inc. proudly provides sampling, remediation, and abatement services to both residential and commercial Clients, as well as government and non-profit organizations located within the states of Pennsylvania, Maryland and West Virginia. We continuously strive to fulfill any and all of our Clients' needs by offering effective elimination of hazardous materials and contaminants. With the help of our knowledgeable and professionally trained staff, Baxter Group, Inc. takes pride in the utilization of safe and proper practices used to serve our community and improve the health and well-being of our Clients.

Baxter Group, Inc. administers the following (plus many more!) services to our Clients:

Consultation and Project Design
Asbestos Sampling, Surveys, and Abatement
Mold Sampling, Assessments, and Remediation
Lead Detection, Lead Paint Removal and Paint Stripping
Radon Measurement and Mitigation
HVAC Duct Cleaning and Inspections
Damage Restoration and Rebuild
Indoor Environmental Assessments
Customized Educational Seminars

Baxter Group, Inc. revels in our ability to assure our Clients that our work is performed in compliance with all applicable laws pertaining to our industry, and the health and safety of our community is always made our top priority. Our asbestos crew members are certified under the AHERA (Asbestos Hazard Emergency Response Act 40 CFR-763) program, and all remediation and abatement technicians are fully covered by the medical surveillance program as required by OSHA (Occupational Safety and Health Administration) regulation 29 CFR-1926.1101.
